## Strengthening European research cooperation for smart and sustainable management of tropical and subtropical biodiversity in Outermost Regions (ORs) and Overseas Countries and Territories (OCTs)

### Project Main Achievements

#### Policy Recommendations and Research Priorities

#### Biodiversity Management Toolbox

#### 4 main challenges

- Integrated biodiversity conservation through spatial planning
- Sustainable agriculture and forestry practises
- Sustainable management and effective conservation of biodiversity
- Knowledge based decision-making in marine and coastal issues

5 Policy Recommendations

4 Research Priorities

#### Dedicated biodiversity interactive tool:

- Online discussion with peers
- Search for partners for collaboration in biodiversity research activities
- Support for decision-making
- One stop shop for biodiversity management knowledge

## Policy Recommendations and Research Priorities on the main challenges identified

### Policy Recommendations

- Adopt a more coherent approach to spatial planning, accounting for ecological and societal considerations
- Adapt international legislation to national/regional context
- Promote more efficient and sustainable usage of natural resources
- Put ecosystem-based management principles into practice
- Establish biodiversity indicators specific for EU overseas

### Research Priorities

- Improve tools for effective participation in biodiversity management
- Predict effects of climate change on natural resource use
- Increase the consideration of biodiversity and ecosystem services in environmental assessment and valuation methods
- Map ecological limits to extractive activities

Find out more in the NetBiome-CSA Strategic Document: Management of European Overseas (sub)tropical biodiversity in support of sustainable development: Policy recommendations and priorities for research cooperation

## Biodiversity Management Toolbox - Dedicated interactive tool for ORs and OCTs

- Stakeholders database on biodiversity management and research
- Case studies for biodiversity valuation
- Good practices for tropical and (sub)tropical biodiversity conservation
- Training and communication materials on biodiversity valuation
- Online forum

### BIODIVERSITY MANAGEMENT

### ONE STOP SHOP

## PROJECT SNAPSHOT

TITLE: NetBiome-CSA - Strengthening European research cooperation for smart and sustainable management of tropical and subtropical biodiversity in outermost regions and overseas countries and territories

FUNDING SCHEME: Coordination and support action, FP7-ENV-2013

DURATION: 36 Months

START DATE: May 2013

COORDINATOR: FRCT, Azores, Portugal

WEBSITE: [www.netbiome.eu](http://www.netbiome.eu)

## CONTACTS

PROJECT COORDINATOR: JOSÉ M.N. AZEVEDO

Fundo Regional para a Ciência e a Tecnologia (FRCT)  
Rua do Mercado, 21, 9500-326 Ponta Delgada, Azores, Portugal  
Tel. (+351) 926 370 667 . Fax (+351) 296 288 686
